

ST MARY'S SCHOOL HAMPSTEAD

Relationships, Health and Sex Education POLICY

September 2025

Reviewed: September 2025
Next Review Date: September 2026

MISSION STATEMENT

St Mary's School seeks to provide an outstanding education firmly founded on the Catholic Faith.

Spiritual and moral principles are nurtured in a way that is reflected in daily life.

Within a happy and caring environment and based on the recognition of the dignity, worth and wellbeing of each child, high standards are expected. Intellectual development is emphasised and fostered along with the pursuit of academic excellence.

St Mary's values the unique contribution of every child within the school community.

St Mary's is inclusive and welcomes girls from all communities and faith backgrounds, or none, and believes that all benefit from the school's values.

St Mary's aims to encourage an active partnership between home, school, parish and the wider community.

Implementation and Review of this Policy

This policy will be reviewed every two years, unless an earlier review is required, by the Head Teacher, RSE Co-ordinator and Director of Studies. The next review date is Autumn 2026. The policy will be given to all members of the governing Body, and all teaching and non-teaching members of staff.

Dissemination

Copies of the policy will be available to all parents through the School's website and a copy is available on request. Details of the content of the RSE curriculum will also be published on the School's website. At present this coverage is from within our PSHCEE programme of study. It will be augmented by the Ten:Ten scheme of work.

We recognise that, as a school, we have a legal responsibility under The Relationships Education, Relationship & Sex Education and Health Education (England) Regulations 2019, made under sections 34 & 35 of the Children & Social Work Act 2017, to provide comprehensive Relationship Education and Health Education for all pupils receiving primary education.

Defining Relationships and Sex Education

The DfE guidance states, "children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way".¹ It is about the development of the pupil's knowledge and understanding of her or him as a sexual being, about what it means to be fully human, called to live in right relationships with self and others and being enabled to make moral decisions in conscience. In primary schools the focus should be on "teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships, and relationships with other children and with adults."² This would include the topics of families and the people of who care for me, caring friendships, respectful relationships, online relationships and being safe.

² Relationships Education, Relationships and Sex Education (RSE) and Health Education: Statutory guidance for governing bodies, proprietors, head teachers, principals, senior leadership teams, teachers Page 19

This will be developed in **secondary schools**, as the secondary RSE curriculum should "give young people the information they need to help them develop healthy, nurturing relationships of all kinds, not just intimate relationships. It should enable them to know what a healthy relationship looks like and what makes a good friend, a good colleague and a successful marriage or other type of committed relationship. It should also cover contraception, developing intimate relationships and resisting pressure to have sex (and not applying pressure)."³

Statutory Curriculum Requirements

We are legally required to teach those aspects of RSE that are statutory parts of National Curriculum Science. However, the reasons for our inclusion of RSE go further.

Rationale

'I HAVE COME THAT YOU MIGHT HAVE LIFE AND HAVE IT TO THE FULL' (Jn.10:10)

³ Relationships Education, Relationships and Sex Education (RSE) and Health Education: Statutory guidance for governing bodies, proprietors, head teachers, principals, senior leadership teams, teachers Page 25

We are involved in Relationships and Sex Education precisely because of our Christian beliefs about God and about the human person. The belief in the unique dignity of the human person made in the

image and likeness of God underpins the approach to all education in a Catholic school. Our approach to RSE, therefore, is rooted in the Catholic Church's teaching of the human person and presented in a positive framework of Christian ideals.

At the heart of the Christian life is the Trinity; Father, Son and Spirit in communion, united in loving relationship and embracing all people and all creation. As a consequence of the Christian belief that we are made in the image and likeness of God, gender and sexuality are seen as God's gift, reflect God's beauty, and share in the divine creativity. RSE, therefore, will be placed firmly within the context of relationship, as it is there that sexuality grows and develops.

Following the guidance of the Bishops of England and Wales, and as advocated by the DfE, RSE will be firmly embedded in the PSHCEE framework as it is concerned with nurturing human wholeness and integral to the physical, spiritual, emotional, moral, social and intellectual development of pupils. It is centred on Christ's vision of being human as good news and will be positive and prudent, showing the potential for development, while enabling the dangers and risks involved to be understood and appreciated.

All RSE will be in accordance with the Church's moral teaching. It will emphasise the central importance of marriage and the family whilst acknowledging that all pupils have a fundamental right to have their life respected whatever household they come from. It will also prepare pupils for life in modern Britain.

Values and Virtues

Our PSHCEE, Science, and Religious Education teaching enshrines Catholic values relating to the importance of stable relationships, marriage and family life. It also promotes those virtues that are essential in responding to God's call to love others. The following virtues will be explored: faithfulness, fruitfulness, integrity, prudence, mercy and compassion.

Aim of RSE and the Mission Statement

Our Mission Statement commits us to the education of the whole child (spiritual, physical, intellectual, moral and social, cultural, emotional) and we believe that RSE is an integral part of this education. Furthermore, our school ethos supports us in our endeavour to raise pupils' self-esteem, help them to grow in knowledge and understanding, recognise the value of all persons and develop caring and sensitive attitudes.

In partnership with parents, we provide children and young people with a "positive and prudent sexual education".⁴ This education is compatible with their physical, cognitive, psychological, and spiritual maturity, and rooted in a Catholic vision of education and the human person.

Objectives

To develop the following attitudes and virtues:

- reverence for the gift of human sexuality and fertility;
- respect for the dignity of every human being – in their own person and in the person of others;

⁴ Gravissimum Educationis 1

- joy in the goodness of the created world and their own bodily natures;
- responsibility for their own actions and a recognition of the impact of these on others;
- recognising and valuing their own sexual identity and that of others;
- celebrating the gift of life-long, self-giving love;
- recognising the importance of marriage and family life;
- fidelity in relationships.

To develop the following personal and social skills:

- loving and being loved, and the ability to form friendships and loving, stable relationships free from exploitation, abuse and bullying;
- making sound judgements and good choices which have integrity, and which are respectful of the individual's commitments;
- managing emotions within relationships, and when relationships break down, with confidence, sensitivity and dignity;
- managing conflict positively, recognising the value of difference;
- cultivating humility, mercy and compassion, learning to forgive and be forgiven;
- developing self-esteem and confidence, demonstrating self-respect and empathy for others;
- building resilience and the ability to resist unwanted pressures, recognising the influence and impact of the media, internet and peer groups and so developing the ability to assess pressures and respond appropriately.

To know and understand:

- the Church's teaching on relationships and the nature and meaning of sexual love;
- the Church's teaching on marriage and the importance of marriage and family life;
- the centrality and importance of virtue in guiding human living and loving;
- the physical and psychological changes that accompany puberty;
- the facts about human reproduction, how love is expressed sexually and how sexual love plays an essential and sacred role in procreation.

Outcomes

Inclusion and Differentiated Learning

We will ensure our teaching of RSE is sensitive to the different needs of individual pupils in respect to pupils' different abilities, levels of maturity and personal circumstances; for example, their own sexual orientation, faith or culture and is taught in a way that does not subject pupils to discrimination. Lessons will also help children to realise the nature and consequences of discrimination, teasing, bullying and aggressive behaviours (including cyber-bullying), use of prejudice-based language and will teach them how to respond and ask for help.

Equalities Obligation

The governing body have wider responsibilities under the Equalities Act 2010 and will ensure that our school strives to do the best for all of the pupils, irrespective of disability, educational needs, race, nationality, ethnic or national origin, sex, gender identity, religion, sexual orientation, or whether they are looked-after children.

Broad Content of the RSE Curriculum

Three aspects of RSE - attitudes and values, knowledge and understanding, and personal and social skills will be provided in three inter-related ways: the whole school / ethos dimension, a cross-curricular dimension, and a specific relationships and sex curriculum.

Programme/Resources

Appendices to this policy provide further information about the programme and resources for suggested use.

Science - National Curriculum (See **Appendix A**)

Religious Education - *Come and See* Scheme of Work (See **Appendix B**)

PSHCEE - Jigsaw Scheme of Work (See **Appendix C**)

RSE - Ten:Ten Life to the Full Scheme of Work (See **Appendix D** – to begin Autumn 2)

Teaching strategies will include:

- establishing ground rules
- distancing techniques
- discussion
- project learning
- reflection
- experiential
- active
- thought showering
- film & video
- group work
- role-play
- trigger drawings
- values clarification

RSE will be assessed through a range of methods including; in-class assessments, quizzes and end-of-topic tests in order to check children's understanding of the material and understanding of the range

of different aspects and contexts covered. The Leaders of Learning for PSHCEE, alongside members of the Senior Leadership Team (SLT), will be carrying out learning walks and book scrutiny, alongside scheduled lesson observations, in order to ensure the relevance and appropriateness of the content, as well as the breadth of coverage. This will be further embedded through the observations and assessments already carried out in The Science National Curriculum teaching.

Parents and Carers

We recognise that parents (and other carers who stand in their place) are the primary educators of their children. As a Catholic school, we provide the principal means by which the Church assists parents and carers in educating their children. Therefore, the school will support parents and carers by providing information at the curriculum evenings about what will be taught from the RSE curriculum in the coming year. Parents/carers will be informed by letter when the more sensitive aspects of RSE will be covered in order that they can be prepared to talk and answer questions about their children's learning.

Parents continue to have the right to withdraw their children from Sex Education except in those elements that are required by the National Curriculum Science Orders. Should parents wish to withdraw their children, they are asked to notify the school by contacting the Headmistress. The School will provide support by providing material for parents to help the children with their learning.

We believe that the controlled environment of the classroom is the safest place for this curriculum to be followed. Please refer to the DfE guidance, p.17 for further details on the right to be excused from sex education (commonly referred to as the right to withdraw).

Balanced Curriculum

Whilst promoting Catholic values and virtues and teaching in accordance with Church teaching, we will ensure that pupils are offered a balanced programme by providing an RSE programme that offers a range of viewpoints on issues.

Pupils will also receive clear scientific information as well as covering the aspects of the law pertaining to RSE knowing about facts and enabling young people to explore differing viewpoints is not the same as promoting behaviour and is not incompatible with our school's promotion of Catholic teaching. We will ensure that pupils have access to the learning they need to stay safe, healthy and understand their rights as individuals.

Responsibility for Teaching the Programme

Responsibility for the specific Relationships and Sex education programme lies with Leaders of Learning for PSHCEE, Science, Religious Education, alongside SLT.

However, all staff will be involved in developing the attitudes and values aspect of the RSE programme. They will be role models for pupils of good, healthy, wholesome relationships as between staff, other adults and pupils. They will also be contributing to the development of pupils' personal and social skills.

External Visitors

Our school may call upon help and guidance from outside agencies and health specialists to deliver aspects of RSE. Such visits will always complement the current programme and never substitute or replace teacher-led sessions. It is important that any external visitor is clear about their role and responsibility whilst they are in school delivering a session. Any visitor must adhere to our code of practice developed in line with CES guidance Checklist for External Speakers to Schools.

Health professionals should follow the school's policies, minimising the potential for disclosures or

inappropriate comments using negotiated ground rules and distancing techniques as other teachers would. They will ensure that all teaching is rooted in Catholic principles and practice.

Other Roles and Responsibilities Regarding RSE

Governors

- contribute to RSE policy, in consultation with parents and teachers;
- ensure that the policy is available to parents;
- ensure that the policy is in accordance with other whole school policies, e.g., SEND, the ethos of the school and our Christian beliefs;
- ensure that parents know of their right to withdraw their children;
- establish a link governor to share in the monitoring and evaluation of the programme, including resources used;
- ensure that the policy provides proper and adequate coverage of relevant National Curriculum Science topics and the setting of RSE within PSHE.

Headmistress

The Headmistress takes overall responsibility for the implementation of this policy and for liaison with the governing body, parents, the Diocesan Schools' Service and the Local Education Authority, as well as any appropriate agencies.

PSHCEE/RSE Co-ordinator

The Co-Ordinator, with the Headmistress, have a general responsibility for supporting other members of staff in the implementation of this policy. They will lead the dissemination of the information relating to RSE and the provision of in-service training. They will be further supported by the Designated Safeguarding Lead, Deputy Head, and Director of Studies.

All Staff

RSE is a whole-school issue. All teachers have a duty of care. As well as fostering academic progress, they should actively contribute to the guardianship and guidance of the physical, moral, and spiritual well-being of their pupils. Teachers are expected to teach RSE in accordance with the Catholic Ethos of the School. Appropriate training will be made available for all staff teaching RSE. All staff have been included in the development of this policy and all staff should be aware of the policy and how it relates to them.

Relationships to Other Policies and Curriculum Areas

This RSE policy is part of the PSHCEE framework. It includes guidelines about pupil safety and is compatible with the school's other policy documents (for example, Anti-Bullying Policy, Child Protection and Safeguarding Policy)

Pupils with particular difficulties whether of a physical or intellectual nature will receive appropriately differentiated support in order to enable them to achieve mature knowledge, understanding and skills. Teaching methods will be adapted to meet the varying needs of this group of pupils.

Children's Questions

As a school, we aim to promote a healthy, positive atmosphere in which RSE can take place. This is to ensure that pupils can ask questions freely, be confident that their questions will be answered, and be sure that they will be free from bullying or harassment from other children and young people.

Controversial or Sensitive Issues

There will always be sensitive or controversial issues in the field of RSE for a variety of reasons. The School believes that children are best-educated and protected from harm and exploitation by discussing such issues openly within the context of the RSE programme. The use of ground rules, negotiated between teachers and pupils, will help to create a supportive climate for discussion. (See also Relationships Education, Relationships and Sex Education (RSE) and Health Education, Managing Difficult Questions, p.23 for more detail)

Some questions may raise issues that it would not be appropriate for teachers to answer during ordinary class time, e.g., where a child or young person's questions hints at abuse, is deliberately tendentious or is of a personal nature. When this occurs, the teacher should refer to the Safeguarding Policy and consult with the Designated Safeguarding Lead (DSL).

Supporting Children who are At-Risk

Children will also need to feel safe and secure in the environment in which RSE takes place. Effective RSE will provide opportunities for discussion of what is and is not appropriate in relationships. Such discussion may well lead to disclosure of a safeguarding issue. Teachers will need to be aware of the needs of their pupils and not let any fears and worries go unnoticed. Where a teacher suspects that a child is a victim of, or is at risk of, abuse they are required to follow the school's Child Protection and Safeguarding Policy and immediately inform the Designated Safeguarding Lead or the Deputy Designated Safeguarding lead.

Confidentiality and Advice

All governors, all teachers, all support staff, all parents and all pupils must be made aware of this policy, particularly as it relates to issues of advice and confidentiality.

All lessons, especially those in the RSE programme, will have the best interests of pupils at heart, enabling them to grow in knowledge and understanding of relationships and sex, developing appropriate personal and social skills and becoming appreciative of the values and attitudes that underpin the Christian understanding of what it means to be fully human.

Pupils will be encouraged to talk to their parents/carers about the issues that are discussed in the programme. Teachers will always help pupils facing personal difficulties, in line with the school's pastoral care. Teachers should explain to pupils that they cannot offer unconditional confidentiality. Teachers will explain that in some circumstances they would have to inform others, e.g., parents, Headmistress

Monitoring and Evaluation

The RSE Co-ordinator will monitor the provision of the various dimensions of the programme by examining plans, schemes of work and samples of pupils work at regular intervals. The programme will be evaluated biannually by means of questionnaires / response sheets / needs assessment given to pupils, and / or by discussion with pupils, staff and parents. The results of the evaluation should be reported to these groups of interested parties and their suggestions sought for improvements. Governors will consider all such evaluations and suggestions before amending the policy. Governors remain ultimately responsible for the policy.

APPENDIX A

Science: Links with Relationships and Sex Education

Introduction

The following is intended as a guide for linking RSE with Science. Discussions and activities related to RSE may arise when covering these topics across year groups, and where possible the teaching of Animals (including humans) should be planned to link or be taught concurrently with relevant PSHCEE and RSE topics.

EARLY YEARS		
UNDERSTANDING OF THE WORLD	Children talk about past and present events in their own lives and in the lives of family members. They know that other children don't always enjoy the same things, and are sensitive to this. They know about similarities and differences between themselves and others, and among families, communities and traditions.	• Has a sense of own immediate family and relations. • In pretend play, imitates everyday actions and events from own family and cultural background, e.g., making and drinking tea. • Beginning to have their own friends. • Learns that they have similarities and differences that connect them to, and distinguish them from, others. • Talk to children about their friends, their families, and why they are important. • Support children's understanding of difference and of empathy by using props such as puppets and dolls to tell stories about diverse experiences, ensuring that negative stereotyping is avoided.

YEAR 1		
ANIMALS (INCLUDING HUMANS)	Children become familiar with their bodies and the names of various body parts	• Pupils should have plenty of opportunities to learn the names of the main body parts (including head, neck, arms, elbows, legs, knees, face, ears, eyes, hair, mouth, teeth) through games, actions, songs and rhymes

YEAR 2		
ANIMALS (INCLUDING HUMANS)	Children notice that animals, including humans, have offspring which grow into adults and describe the importance for humans of exercise, eating the right	• Pupils should be introduced to the processes of reproduction and growth in animals. The focus at this stage should be on questions that help pupils to recognise growth; they should not be expected to understand how reproduction occurs. • Pupils should be introduced to the basic needs of animals for survival, as well as the importance of exercise and nutrition for humans.

	amounts of different types of food, and hygiene.	
--	--	--

YEAR 3		
ANIMALS (INCLUDING HUMANS)	Children identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat. Children identify that humans and some other animals have skeletons and muscles for support, protection and movement.	Pupils should continue to learn about the importance of nutrition and should be introduced to the main body parts associated with the skeleton and muscles, finding out how different parts of the body have special functions.

YEAR 4		
ANIMALS (INCLUDING HUMANS)	Children describe the simple functions of the basic parts of the digestive system in humans	Pupils should be introduced to the main body parts associated with the digestive system, for example, mouth, tongue, teeth, oesophagus, stomach and small and large intestine and explore questions that help them to understand their special functions.

YEAR 5		
LIVING THINGS AND THEIR HABITATS ANIMALS (INCLUDING HUMANS)	Children describe the life process of reproduction in some plants and animals, including sexual reproduction in animals, and describe the changes as humans develop to old age, including puberty.	- Pupils should draw a timeline to indicate stages in the growth and development of humans. They should learn about the changes experienced in puberty. - Pupils should find out about different types of reproduction, including sexual and asexual reproduction in plants, and sexual reproduction in animals. - Pupils could work scientifically by researching the gestation periods of other animals and comparing them with humans; by finding out and recording the length and mass of a baby as it grows.

YEAR 6		
ANIMALS (INCLUDING HUMANS)	Children learn to recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function.	Pupils should learn how to keep their bodies healthy and how their bodies might be damaged – including how some drugs and other substances can be harmful to the human body.

APPENDIX B

Religious Education (Come and See): Links with Relationships and Sex Education

Introduction

The following is intended as a guide for linking RSE with *Come and See*. Some of these aspects might be covered in the *Explore* section where the topic is being introduced, starting with the pupil's own experience, and extending into the *Reveal* and *Respond* sections. Some ideas may be used in the *Reveal* process where the teaching is explicitly concerned with Scripture and the teaching of Church.
